

Putting The Power of Partnership to Work for You
**ASSOCIATE & AFFILIATE
 MEMBER BENEFITS**

HPA Associate and Affiliate Membership

As the leading advocacy organization for health plans in New York State, HPA works closely with policymakers and other stakeholders to shape New York's health care policy. Through advocacy, public education and health policy research, HPA serves as a focal point on issues affecting the quality and affordability of health care, and works with consumer groups, employer organizations, state officials and others in the health care system to make health care better, simpler and more affordable.

In addition to health plan members, HPA offers two additional membership categories:

Associate membership:

Open to Public Health Law Article 44 Licensed MLTCs. Dues \$16,500 per year.

Affiliate Membership:

Open to corporations, organizations, and partnerships, including: Companies approved as utilization review agents, pharmacy benefit management companies, dental benefit companies, behavioral health, pharmaceutical, healthcare technology and disease management companies. Dues \$5,000 per year.

Benefits of HPA Membership

- Discounted registration and exhibitor fees at the HPA annual conference
- Opportunities to present at HPA seminars and meetings
- Networking opportunities
- Copies of select HPA policy and position papers
- Access to research, data, fact sheets and policy information collected and developed by HPA staff
- Attendance at the HPA annual membership meeting and membership rate for the pre-conference dinner held in conjunction with the HPA annual conference
- Company, Name, Logo listed on the HPA Website
- HPA weekly e-Newsletter

HPA offers various opportunities for businesses to network with and market products or services to our member health plans. Through the annual conference or educational seminars, we can offer your company opportunities. To obtain additional info on membership contact Arlene Halpert at ahalpert@nyhpa.org.

About the HPA

New York Health Plan Association (HPA), Inc. was established for the purpose of promoting the development of managed health care plans within New York State. Currently, HPA's members include fully licensed managed care plans and Public Health Plans (PHPs) that provide health care coverage to New Yorkers enrolled through their employers or a variety of government-sponsored programs and individuals who shop for coverage through the state's official Marketplace. HPA Associate members are Managed Long Term Care plans (MLTCs), which provide or arrange for and coordinate both the health care and long term care needs of their patients. HPA's Affiliate members are organizations and companies that work with managed care plans in the delivery of services to their members. Together, HPA's member plans provide health care coverage for more than eight million New Yorkers.

HPA is dedicated to the principle that managed care plans are a vital component of both present and future health care delivery and health insurance systems in New York. To this end, the association promotes and fosters a favorable environment for managed care development within New York State.

HPA's member plans are committed to the health care needs of New York State, serving residents healthy and sick, and communities rural and urban. Member plans provide health care protection to the employed population, Medicaid and Medicare beneficiaries, and participate in innovative programs that promote the health and well-being of New York State residents.

HPA works closely with government to achieve legislation and regulations that promote cost containment and efficient use of health care resources. In carrying out its mission, HPA provides leadership in establishing public health policy.
